

Sept 2020

- WARRANTY STATEMENT -

YHI POWER PTY LTD (YHIP), the distributor of CSB Energy Technology Co., Ltd. In Australia, will provide the following limited warranty to the original purchaser subject to the terms and conditions stated herein. The guarantee that comes with our goods are bound by Australian Consumer Law.

LIMITED PRODUCT WARRANTY

Stationary Batteries:

All 12-volt batteries are warranted to be free from defects in material and workmanship and manufactured in accordance with our specifications. Should a claim arise, the following is our limited product warranty policy.

GP, HR, UPS	<u>1 year</u>
GPL, HRL, XHRL, XTV	<u>2 years</u>

Warranty period starts from the date of the initial purchase.

If upon initial inspection and installation the battery fails to meet the published performance ratings per the latest catalogue data at the time of shipment, or the user identifies flaws in material or workmanship that would impair life or product performance, the user will be instructed to:

1. Upon written approval, return the product for examination freight prepaid.
2. Hold the materials on the site pending inspection by a CSB Energy Technology representative.

Upon satisfactory proof of claim, as determined solely by CSB Energy Technology, CSB Energy Technology will repair or replace at our option any defective battery.

Warranty of a battery is defined as its failure to reach at least 60% its rated capacity under standby or float use and acceptable frequency of power failure can occur once per month. If a properly maintained battery fails to meet 60% of its rated capacity, CSB Energy Technology will replace the defective battery.

Cost for replacement equipment installation, material freight charges and travel expenses of CSB Energy Technology representatives will be the responsibility of the purchaser.

Conditions:

1. Warranty claims for full replacement must be made three (3) months from failure.
2. This warranty applies only to the original purchaser of the equipment and is non-transferable.

3. Each battery must be the proper size, design, and capacity for its intended application at up to 25 ° C (77 ° F).
4. The warranty period shall be adjusted based on operating temperatures, frequency, and depth of discharge. For every 10 ° C (18 ° F) increase in operating temperature above 25 ° C (77 ° F), the warranty period will be reduced 50%.
5. Each battery must be operated and maintained in accordance with the published instructions. This warranty is invalid if the battery is subject to misuse, abuse, physical damage, freezing, neglect, or the use of battery additions.
6. This warranty does not cover any physical damage due to nature or man, which stresses the battery beyond design limits, and is void if manufacturing date codes are destroyed.
7. Space between battery layouts must be sufficient or heat dissipation device is required for system which connected to battery, in addition, temperature compensation must include in the battery charge system.

CSB Energy Technology Co., Ltd. and its distributor shall not be liable for, and user shall indemnify from any claims and liabilities arising out of the use, maintenance, transportation, or installation of any equipment warranted hereunder. The foregoing limited warranty is in lieu of all warranties expressed or implied, including any warranty of merchantability or fitness for a particular purpose. As per the Australian Consumer Law, if the battery usage is not for personal, domestic, or house- hold use, then authorized distributor will not be responsible or liable for any consequential or incidental expense or loss.
