

YHI POWER

Battery Power You Can Rely On

START-STOP Technology

Technology developed to reduce CO2 emission increase fuel efficiency by 5-10%

The Performance of AGM and EFB batteries technology will deliver significantly higher cycle life that Start-Stop systems required.

AGM and EFB batteries technology capable for vehicle system with large accessory electric drains.

17.5% DOD Cycle (Cycle Life)

Neutron Power AGM and EFB Start-Stop Ready Batteries are designed with the latest Start-Stop technology. Neutron Power's strong and powerful battery aim to deliver reliability to your ignition system.
