# CORPORATE PROFILE

## - ABOUT US

### YHI INTERNATIONAL LIMITED

*YHI International Limited is a leading global distributor of high-quality automotive and industrial products, and a trusted brand name in alloy wheels manufacturing as an Original Design Manufacturer (ODM) and was listed on the Mainboard of the Singapore Exchange on 3 July 2003.*

*Today, YHI's international presence spans across over 100 countries through its 32 subsidiaries and 2 associated companies*

*located across Asia Pacific, North America and Europe. YHI distributes a diverse range of premium automotive products, which includes tyres, alloy wheels, energy solutions, buggy & utilities vehicles and other industrial products to more than 5,000 customers globally.*

*In order to strengthen YHI distribution network, the Group will continuously sharpen its sales focus, as well as embark on strategic plans to promote and develop its portfolio of premium and proprietary brands in the global market where "The World is Our Market".*

### YHI POWER PTY LTD - AUSTRALIA

*YHI POWER PTY LTD as part of YHI Group, was established in Australia in 1994, the company has grown and diversified its business and is now recognised as a distributor of high quality industrial, automotive, solar batteries and associated products.*

*Our friendly, experienced and highly motivated sales personnel are committed to provide all of our customers with consistent*

*customer care. They will ensure that the batteries are fresh and ready to use, that the product warranties are settled promptly on site, stocks are rotated and kept clean and presentable. We always keep our customers up to date with the latest news and information regarding our products through various forms of media, and we listen to our customers needs through various feed back mechanisms.*

**Using a network of sales and warehousing facilities in Sydney, Melbourne, Brisbane, Perth & Adelaide, YHI Power provides superior customer service to ensure the customer has the right product, on time, to meet their needs.**

- **Sole Australian Distributor of Vision, CSB and Crown batteries.**
- **Exclusive distributor of Neuton Power & Neuton Power K ( YHI's own brand ) products.**
- **Supplier of battery chargers, racks, cabinets and various accessories.**

**Our focus is to strengthen and widen our distribution network, sharpen our sales focus and embark our multi-brand, multi-category and multi-product (3M) marketing strategy.**

## **YHI MISSION STATEMENT**

- **To be a recognised global distributor of high-quality automotive and industrial products, and a familiar and trusted brand name in alloy wheels manufacturer as an Original Design Manufacturer.**
- **To position YHI Group effectively by continuously providing customers with quality products and distinctive customer services so as to build strong customer relationships.**
- **To provide growth and opportunities for our employees and to consistently generate stable returns to shareholders.**
- **To be committed to quality, professional and personnel management, sound business practices and teamwork.**

# YHI POWER SERVICE

## - OUR COMMITMENT

### YHI POWER SERVICE & SUPPORT

*We believe that the YHI POWER value-for-money goes beyond the superior quality and competitive price of our products. Beyond these, what really sets us apart from the rest is our commitment to service and our customers.*

*Our experienced Support Team are experts in all areas - providing valuable technical, battery knowledge and prompt warranty solutions. We believe in building lasting business relationships based on fairness and mutual growth by providing consistent, efficient and cost-effective supply of products to ensure the viability of our customers' own businesses.*

*We provide sufficient merchandising support to our customers to help them with the success of their own businesses. Neuton Power and Neuton Power K headerboards, battery stands, signages, posters, brochures, application manuals, product catalogues, and other give-aways are readily available for customers upon the recommendation of our sales representatives. We also include selected customers in various advertising campaigns, such as the directory listings, magazine spreads, and our website. We also have various promos throughout the year to entice more sales for our customers.*

### DISTRIBUTION NETWORK

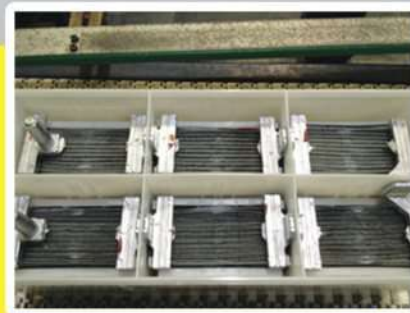

*YHI POWER is extremely proud of our nationwide coverage, having serviced thousands of customers across Australia throughout the years. Our network includes over 15 warehousing locations and over 40 vehicles from across Victoria, New South Wales, ACT, Queensland, Western Australia, South Australia and the Northern Territory.*

*This facilitates the servicing of over 3000 regular customers through consistent, scheduled service. For more information on YHI POWER's range of products and services, please contact your nearest YHI POWER office on **1300 722 028** or visit **[www.yhipower.com.au](http://www.yhipower.com.au)***

# CON CASTING & ROLLING

## DOUBLE ENVELOPING WITH ANTI-VIBRATION

### FEATURES:

- Design flexibility
- Grid with frames
- Light weight producing

- More efficiency on grid making
- Exceptional product consistency
- Double enveloping with fibre glass mat

## GLUING EQUIPMENT

## GLUING PROCESS

## GLUED BATTERY

- Use special glue to fasten the plate group, which can improve the vibration & resistance performance of the battery.
- Advantage of mechanical welding:
  1. Good welding quality & consistency
  2. High producing efficiency
  3. Improve the efficiency of mould ( one mould for more models).

# Neuton POWER® PREMIUM

## HEAVY DUTY

\* Conditions apply.

## START-STOP Truck Batteries

### Enhanced Flooded Batteries (EFB)

- High density plate for better corrosion resistance
- Superior starting power and reserve capacity

### Absorbent Glass Mat (AGM)

- Up to 1200CCA & 330AH Capacity
- Spill-proof design & Greater cycle life
- Highly efficient special micro-porous glass mat
- Separators that absorb electrolytes

Neuton Power's popular series of enhanced flooded batteries (EFBs) and absorbent glass mat (AGM) car batteries were designed for vehicles with start/stop systems with very large electrical drains. EFBs are the improved version of the wet flooded batteries, while AGM batteries benefit from features not found in EFB, such as glass mat separators, one-way vent system and increased pack pressure. Both these battery types incorporate the punch grid technology for better rigidity, reduced corrosion, plate growth and also reducing the possibility of internal short circuiting. All these provide better active mass utilization, and therefore improving cycle life and charge acceptance.

**AUSTRALIA WIDE DISTRIBUTION**

# Neuton POWER<sup>®</sup> Revolution in Power<sup>K</sup>

## Neuton Power K Brand NEW Premium **SILVER SERIES** Batteries

**Silver Series Batteries have 25% higher Starting Power and 15% higher Capacity than other Standard Maintenance-free Batteries.**

Please note: This Data is supplied by our manufacturer Engineers.

## **STRONG & POWERFUL!**

### KEY FEATURES

- **Punched Grid for Positive grid**
  - Improved corrosion resistance & longer life
  - Minimized self-discharge, enhancing cold cranking power
  - Uniformed grid dimension and smooth electrical flow
  - Strong physical strength by full frame rounded edge grid design
- **Unique Grid Surface Design**
  - Enhanced adhesion of active materials to grid
  - Internal short circuit protected by wide-bridge & adhesion of active materials
- **Micro 4BS Crystal Structure of Active Materials**
  - Extended life cycle by adding special additives in active material
  - Delay of sulfation throughout high charge-discharge efficiency
- **Micro Fiber & Special Tissue**
  - Enhanced adhesion of active materials

# NEUTON POWER AUTOMOTIVE RANGE

## Start-Stop Range EFB / AGM

- **Spill-proof design**
- **Greater cycle life**
- **Increase fuel efficiency by 5 to 10%**
- **Highly efficient special micro-porous glass mat separators that absorb electrolytes**
- **Superior starting power and reserve capacity**
- **Up to 24 months warranty**

\*6 month warranty for taxis and police vehicles, 12 month warranty for commercial vehicles.

# NEUTON POWER SOLAR RANGE

**48 Volts FCP-500  
System module**

## **FCP Lead Carbon Battery** *AGM VRLA Battery with Deep Cycle*

- **Advanced Japanese Super Long Life Technology**
- **More than 4200 Cycles @70% DOD**
- **Partial State of Charge Benefit**
- **Unit Structure and Multiple Superimposed Loading Allowed**
- **Excellent Consistency and Reliability**
- **Compact Structure and Easy Installation**

### **Introduction of**

*Japanese Furukawa battery company*

**Advanced Lead Carbon Technology!**

### **Module Technical Parameters**

- **FCP-500**
- **FCP-1000**

## OPzV Series

### Valve Regulated Sealed Gel Battery

- German tubular pure gel technology
- Long Life according to EUROBAT Classification
- Up to 1500 deep discharge cycles
- High discharge performance
- High gas recombination efficiency
- Maximum charge efficiency
- Gel state electrolyte prevents leakage and layering
- Easy installation vertical or horizontal
- 3+2 years warranty

Practice shows that OPzV battery has superior service life and reliability, good cycling performance and charge acceptance ability, can be used in high-low temperature environment, poor power condition and pure cycle use solar energy, wind energy of various types of communication base stations.

\*first 36 months full replacement, last 24 months pro-rata from the invoice date of the goods.

# NEUTON POWER SOLAR RANGE

## DCS Series Deep Cycle Battery

- **Very long life according to EUROBAT Classification**
- **More than 3000 cycles at 70% DOD**
- **Special negative active material formula**
- **Improve the charge acceptance ability**
- **Compact structure**
- **Easy installation**
- **Convenient maintenance**
- **2+2 years warranty**

**NLC Cabinet**

NLC series deep cycle battery is made of special high-tin corrosion-resistant alloy, It has optimized positive grid structure design and special negative active material improving charge acceptance ability and reducing negative plate sulphation. It is optimal battery for a wide range of household energy storage systems and suitable for partial state of charge (PSOC) applications.

\*first 24 months full replacement, last 24 months pro-rata from the invoice date of the goods.

## Deep Cycle Series AGM Battery

- Ultra-long discharge cycle
- Used for power backup and energy storage
- Deep discharge recovery
- High power density
- High heat capacity
- International standard, JIS and DIN
- 12 months warranty

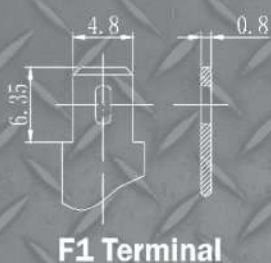

This series is designed for cyclic use. Batteries of this series are made of special alloy and paste of lead, and allow for deep discharge cycles. With a lean design, the batteries are sealed, maintenance-free, and can be installed in any direction.

\*Please refer to our warranty statement. T&C apply.

## HFS Series Extreme High Rate

- **Environmentally friendly**
- **Lower internal resistance**
- **Positive and negative plates in lead-calcium tin alloy**
- **Superior energy density and very high power output**
- **Operates at a low internal pressure**
- **Gas recombination**
- **A recognised component of UL**
- **Design life: 12 years**
- **Up to 3 years warranty**

\*Please refer to our warranty statement. T&C apply.

## CT Series Front Terminal Battery

- **Environmentally friendly**
- **Centralized venting system for gas ventilation**
- **Plastics or rope handles for handling and installation convenience**
- **Front access terminals for easy and quick connection**
- **10 years design life for HTB Series**
- **15 years design life CT Front Terminal**
- **3 years warranty**

The CT series are valve-regulated batteries, designed for the telecommunication industry. With terminals at the front, these batteries are easy to install and maintained. Dimensions of the terminals fit in a 19-inch standard power cabinet.

\*Please refer to our warranty statement. T&C apply.

## UPS Lithium Solutions UPS Lithium Cabinet

- **LiFeP04 Battery Cell (LFP)**, more secure, longer Cycle Life, better performance at high temperature
- **Long design life and less maintenance required**
- **High Precision Battery Management System (BMS)**
- **Higher discharge rate and faster charging**
- **Able to communicate with UPS module**
- **5 + 5 Years Pro-Rata Warranty**

With the battery modules and BMS management all in the cabinet with display screen, Vision LFP communicate to the UPS and is securely monitored by 3 levels of battery management control system: Basic management unit in battery module (BMU), Cabinet level BMS (CBMS), System level BMS (GBMS).

Warranty for Vision LFP is 5 years fully replacement.

\*first 5 years full replacement, last 5 years pro-rata from the invoice date of the goods. T&C apply.

## Lithium SP Series LiFePO<sub>4</sub> Batteries

- **Intelligent equalization management**
- **Over charging/discharging, over temperature and short circuit protection**
- **Support 6 in series x 6 in parallel, total 36 batteries in a matrix**
- **Suitable for RV, Energy Storage and UPS backup purpose**

This Lithium SP series provides a high IP rating to ensure safe and reliable system operations in the whole lifecycle. Its smart management structure can accurately monitor the status of each component in the system to ensure stable system performance and safety of users. These batteries are suitable for backup purpose of UPS, energy storage system and recreational vehicles.

\*Please note that these batteries are not suitable for under bonnet usage. Please refer to our warranty statement for warranty details. T&C apply.

## GP Series General Purpose Battery

- High rate discharge
- Deep discharge recoverability
- Up to 5 years design life\*
- Low resistance
- Up to 12 months warranty

GP stands for General Purpose. The series is a modern hi-tech energy application product, and the first generation delicate product in CSB brand.

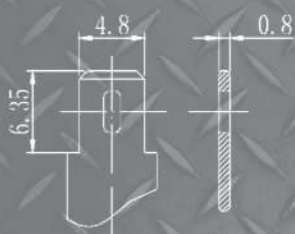

\*The design life is based on Standby Service at 25°C. 12 months warranty from the date of delivery. T&C apply. Please refer to our warranty statement.

## EVX/EVH Series AGM Deep Cycle Battery

- **High rate discharge**
- **Deep discharge recoverability**
- **With special formula to manufacture lead calcium alloy**
- **Long life, low self-discharge rate and high reliability**
- **Up to 12 months warranty**

EVH means Electric Vehicle H. This series focus on improving the cycle life and runtime that base on EVX series. EVX means Electric Vehicle X. This series is a modern hi-tech energy application product.

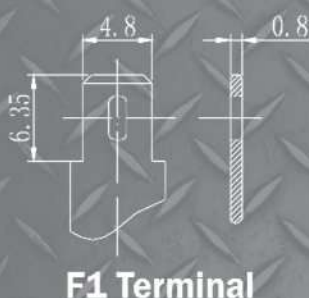

\*12 months warranty from the date of delivery. T&C apply. Please refer to our warranty statement.

## XTV Series Extreme Temperatures Series

- **High rate discharge**
- **Deep discharge recoverability**
- **Innovative plate structure dramatically improves service life under harsh conditions**
- **Long life and low self-discharge rate**
- **High reliability**
- **Complies with IATA/ICAO Special Provision A67 for air transport**
- **Up to 12 years design life\***
- **Up to 12 months warranty**

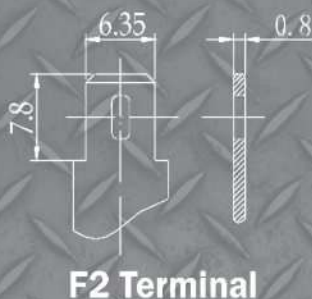

XTV stands for extreme temperatures version. This series is specifically for application where robust battery performance is required to withstand harsh temperature environment.

\*The design life is based on Standby Service at 25°C. 12 months warranty from the date of delivery. T&C apply. Please refer to our warranty statement.

# WARRANTY & GUARANTEE

The guarantee that comes with our goods are bound by Australian Consumer Law. Where a major failure caused by faulty materials and workmanship occurs within the Specified warranty period, you are entitled to a replacement or refund and other loss and damage reasonable foreseeable, you are entitled to be compensated. Further, if the goods are of unacceptable quality does not cause a major failure, you are entitled to a repair or replacement of the goods.

## **WARRANTY EXCLUSIONS**

This warranty does not apply where damage or defects to the battery are caused by the following conditions, including without limitation:

1. Accident, misuse, abuse, improper operation or tampering including removal or damage to vent plugs or loss of parts.
2. The warranty period will be automatically adjusted to the length for commercial use if the vehicle intended to be installed is not present or cannot be inspected by a representative of authorized dealer.
3. Improper, insecure or incomplete mounting.
4. Improper installation including installation of the battery with a capacity lower than that specified by the manufacturer of the product for which the battery will be used.
5. Misapplication including installation of a battery not compatible with its intended application or inappropriate application of the battery.
6. Lack of reasonable care, neglect (including causing sulphation), storage for a long period without proper maintenance or failure to maintain adequate acid level (applies to accessible batteries only).
7. Overcharging, undercharging or if it is discharged: faulty terminals caused failure.
8. Explosion causing damage as a result of a faulty connection including wrong, loose or reversed connection or frayed cables.
9. Any repair or modification by a third party without prior consent from YHI Power PTY LTD: or
10. Any damaged or defects as a result of normal wear and tear.
11. Warranty are not covered for battery that is used in a vehicle different from the vehicle described in the vehicle information guide.

## **BATTERY SAFETY AND MAINTENANCE TIPS**

Extend the life of your battery by:

1. Securing the battery firmly to the cradle, not too tight or too loose. Vibration will damage plates and shorten battery life.
2. Keeping battery cables and terminal connector clean and tight, corrosion prevents electrical flow which can severely diminish charging current and reduce ability of battery to start the vehicle.
3. Checking your electrical charging system regularly and making sure it's working properly. Over or undercharging will impact the positive and negative plates causing a dramatic reduction in the life of the battery.
4. Checking electrical wiring and load. Electrical leakage or short will drain your battery. ie. a boot light or accessories left on can drain your battery overnight.
5. Using the right battery for the application, battery should be the same or bigger than the OEM fitment, undersize battery will fail early.
6. Using automotive battery for starting application and deep cycle battery for deep cycle application (TV, fridge, trolling etc), EFB & VRL range for Start-Stop vehicles.
7. Keeping sparks and flames away from battery, battery creates explosive gases when charging.
8. Keeping your battery fully charge when not used frequently.
9. Keeping the electrolyte level above the plates (for accessible types only).

# ***SAFETY CHART***

***YHI POWER respects and understands the importance of safe procedures when handling and installing batteries. Please refer to the following symbols to ensure that you are not placing yourself and other in danger.***

***Never place metal objects between terminals***

***Use care when lifting (batteries are heavy)***

***Wash eyes immediately with clean water***

***Chemicals toxic to aquatic wildlife***

***Qualified installation recommended***

***Always wear acid resistant clothing***

***Various dangerous substances & materials***

***Do not smoke near batteries***

***Explosive; fire, blast or projection hazard***

***Eye protection recommended***

***Battery acid is corrosive***

***An immediate skin, eye or respiratory tract irritant, or narcotic.***

***Automotive batteries can & should be recycled***

***Health hazard; cause respiratory irritation, reproductive or organ toxicity***
